RUSSIANS STILL HOLD MUKDEN

OUTCOME SEEMS TO BE IN DOUBT

Japanese Fighting Hard to Cut Off Kuropatkin's Retreat—No Reports From Kuropatkin Later Than Wednesday

Mukden at noon yesterday was still occupied by Russians. The pass, twelve miles eastward and on the Hun river, a vital point for Kuropatkin in the retreat of his eastern wing, was bombarded by Russian artillery replied vigorously. The outcome seems to be in doubt. No reports from Kuropatkin later than Wednesday have been given out at St. Petersburg.

DELAYED REPORT.

Mukden, March 9, 10 a. m.—(Delayed.)—The city of Mukden is now being directed from the vicinity of the ancient northern tombs by Japanese forces which are crowding to the railway, where additional troops are assembled to meet this contingency. A narrow strip west of the railroad is literally covered with soldiers and military equipments. The entire south front is now retreating in conformity with the plan formulated upon the consequences of the day's fighting, and Japanese, apprehending the movement, are themselves rushing north around the Russian right. Preceding the retirement, last night heavy firing which extended along the entire south front was for the first time audible at Mukden throughout the entire night and increasing with the day as it approached the west and north. The evacuation of the Shaka position involved several hundred miles of field and overland railways and telegraphs, enormous defensive works, Red Cross hospitals, towns, fuel and forage stores, the latter of which it was necessary to burn. The military roads covered five hundred square miles. The smoke of battle and fires were everywhere obscuring the lines and it is almost impossible to distinguish the configurations. Hospitals here are crowded.

JAPANESE REPORT.

Tokio, March 9.—Headquarters of the Japanese army reported to day as follows: The whole district west of the railroad south of the Hun river is in our hands. In the district north of Mukden we have captured Saichitun, five miles northwest of Mukden; Pachlatu, two miles northwest of Saichitun; and Santaisu, five miles north of Mukden. Our force destroyed the railroad north of Mukden. Since yesterday the enemy frequently and heavily shelled our killed and wounded, who were being removed on stretchers and in carriages.

EARLY REPORTS.

With the Japanese Left Armies, March 9.—The left armies have cut and destroyed the railroad between Mukden and Tientsin. The Russian army in retreat over northern roads. The left column of their army is seven miles north of the Hun river.

Mukden, March 9, 2:30 a. m.—Japanese yesterday attacked the village of Pudaia, northwest of the imperial tombs, and a stubborn fight followed, but the Russians advance guard was obliged to abandon the village. During the night Japanese attacked the village of Santaisu, north of the imperial tombs. Fighting continued. Japanese outposts have reached Hanchuan on the south front. Heavy shelling is in progress there.

Chenankamp's Headquarters, March 9.—(Delayed.)—In pursuance of orders to retire at any cost positions at Oubene, which were lost at nightfall, Russians at midnight stormed and recaptured the hills in the center. Among the dead was a Japanese general in full uniform.

Tientsin, March 9.—The Japanese have requested the transportation of 450 tons of supplies to Simlithin. If the request is not complied with Japanese threaten to seize the railway. It is believed to be a test case. No day Japanese seized the telegraph office at Simlithin.

St. Petersburg, March 9.—The following dispatch from General Sakaharoff, Kuropatkin's chief of staff, dated to day, says: "Several fierce attacks on our north front were made during the night. They were all repulsed. In other directions the night was quiet."

St. Petersburg, March 9.—A veil is drawn over the promise of Kuropatkin's heroic effort to extricate his beaten army, but the general staff insists that while he has been defeated, yet there has been no disaster.

All day yesterday and last night wounded, munitions, baggage, stores streamed backward. The railroad and Mandarin road were almost blocked at the last moment, notwithstanding the fact an immense amount of stores, etc., had been removed last week. The Russo-Chinese bank was removed to Tientsin Sunday.

General Nogi, according to the latest authentic reports, has already reached a point opposite the station of Soubatal, half way between Mukden and Tientsin, but it is believed his left is swinging still further north for a blow at the line of communications, which would realize Oyama's plan for closing the iron ring.

CONTINUE THE GREAT STRUGGLE

TENTH DAY OF UNCEASING CONFLICT

Japanese and Russians Battling for Possession of Mukden and Mastery of a Vast Empire—A Question of Endurance.

Mukden, March 9, 4 a. m.—At midnight closed the tenth day of the titanic struggle for possession of Mukden and mastery of vast empire; the tenth day of unceasing conflict under exploding shrapnel, roar of cannon and whistling of bullets; the tenth day without sleep and without food. The combat is fast reaching the point where it is a question not so much of turning columns, of tactics and of strategy, as whose strength, energy and cartridges will last the longer. Russians clung doggedly to positions against an enemy whose attacks go to the very point of insanity and desperation. For forty-eight hours the Japanese have not eaten. They are starving and exhausted, but Oyama himself has told them the city will fall and slaughter stop on Friday, and their confidence in their leader increased their strength tenfold.

READY FOR ENGLAND

Russia Increasing Military Strength in Russian Turkistan

St. Petersburg, March 9.—Russia is steadily reinforcing her military strength, both in men and guns, in the direction of the Indian frontier. Sensational rumors of dispatch of reinforcements for Russian Turkistan were current two months ago, but they were then denied. The Associated Press is now in position to affirm their truth on authority of a traveler of unimpeachable veracity who has just arrived from Tashkend and who was a personal witness of military activity on the recently completed Orenburg-Tashkend and other strategic railroads through Merv to Krasnovodsk. Troops, guns and munitions of war have been moving southward for two months. Between the middle of January and middle of February fifty-six trains, mostly carrying artillery, arrived at Tashkend.

The Associated Press is unable here to obtain any official admission that any unusual military move is in progress, the statement being made that 14 guns were going south it was simply an ordinary operation in the way of shifting troops, but a Russian of high position made a statement in which he declared Russia "is not blind to the manner in which Great Britain has seized occasion of the present war to buttress all her interests in central Asia, where we have as vital interests as she, nor can we Russians get over the idea that, sooner or later, conflict with our traditional enemy is inevitable, and we realize our only path to victory lies in the direction of India."

The statement then reviews recent occurrences in Asia as supporting suspicions and justifying Russia's present course, and continues: "Great Britain has been making hay while the sun shone, but Russia cannot hold her hands, and see Thibet and Afghanistan converted into British and Nepal or Persia placed completely under British influence. I have no personal knowledge of what, if any, steps have been taken in Turkistan, but Great Britain will find Russia is not so engrossed or helpless as to be obliged to relinquish border states to her mercy without a struggle."

CHICAGO CHARTER LEGISLATION.

Springfield, March 9.—Chicago charter legislation, in so far as the court system is concerned, finished its career in the house to day. By a vote of 113 to 17 the house passed the municipal courts bill, carrying the court of common pleas feature and the bill now goes to the senate. It will probably be passed by the senate.

AWFUL WORK OF PLAGUE IN INDIA.

Calcutta, India, March 9.—Deaths from the bubonic plague in India during the past week numbered 24,000. Statistics show deaths from the plague in India within a few years reach nearly 3,000,000. SENATOR BATE DEAD

Tennessee Statesman Passes Away at His Apartments in Washington

Washington, March 9.—Senator Bate, of Tennessee, died at his apartments at the Ebbett house at six this morning of pneumonia and a defective heart, aged 78.

Bate attended the inauguration ceremonies on the 4th and his death is believed to be due primarily to exposure on that occasion. He suffered a slight chill on that day, but continued his official duties and occupied his seat in the senate last Tuesday. He became suddenly ill at the dinner table that evening and was put to bed. His condition became steadily worse and at hope for his recovery was given up yesterday.

LECTURED ON HAY FEVER.

Berlin, March 9.—Prof. William Duhar, director of the Hamburg Hygienic Institute, born an American, but naturalized as a German, delivered a lecture before a Berlin scientific school this evening on hay fever, which he has made for many years the subject of special investigations. Duhar succeeded in finding the germ of the disease in pollen of rye maize and certain grasses, and treated horses with these germs and secured a serum called pollenin, which has been used with good effect, entirely curing many cases.

IRISH HOME RULE

Question Discussed by Lord Roseberry

London, March 9.—The question of home rule for Ireland was the principal feature of the speech of Lord Roseberry before the City of London Liberal club to night. Roseberry said that while the Liberal party sympathized with Ireland and was willing to proceed along lines of administrative reforms, "there is one thing to which no wise statesman ever will expose the country, namely, the curse of a dual government. We have sufficient warnings in the example of Norway and Sweden and Austria and Hungary to avoid peril of having the vulture gnawing at our very vitals."

Roseberry said that after British ships had been ordered from Port Arthur by Russia and sent to Venezuela at behest of Germany, Britons had little further humiliation to expect at the hands of a Liberal government. If a Liberal government were called upon to renew the Anglo-Japanese alliance he had little doubt it would sign gladly.

GLOOM IN ST. PETERSBURG

LITTLE KNOWN OF OUTCOME OF BATTLE

Speculating as to Fate of Kuropatkin's Army—Russian City Plunged Into Despondency and Pessimism Deeper Than Ever.

St. Petersburg, March 10, 3:45 a. m.—St. Petersburg this morning knows little more of the outcome of the battle at Mukden than it knew Wednesday night and little more of the fate of Kuropatkin's army. It is not even known whether the railroad has been cut and communication destroyed, though it is believed the reported destruction of the line by Oku's army refers to damage inflicted Wednesday, which was not serious, though traffic was twice interrupted. It is evident, however, Japanese are pressing closer this indispensable line of retreat.

The most important news received from Russian sources is Associated Press information that the Japanese already have reached the Hun river. Fu pass is only twelve miles east of Mukden and well westward of Linevitch's line of retreat. Whether the extreme Russian left has already succeeded in retreating behind the Hun river and moving down the north bank of the stream to join hands with Kuropatkin's main force is not stated, but it is extremely probable that unless the Russians are unable to defend the crossing at Fu pass Rennenkampf's army and perhaps additional forces will be cut off and have to shift for themselves in the mountainous region north of Pashun against expeditionary forces of Japanese which are reported toward Tientsin.

DOOMED TO DISASTER

English Military Critic Sees No Chance of Escape for Kuropatkin

London, March 10.—In the opinion of English military critics, Kuropatkin's forces are doomed to complete disaster. A careful study of all avenues of possible escape and dispositions of victorious Japanese armies leads to the conclusion that he can hope to "have a horse's head" of his army after devoting whole divisions to slaughter. Much importance is attached to Kawamura's mysterious unlocated army, which is momentarily expected to complete the closing of the not around the defeated host by appearing somewhere in the extreme east, in the neighborhood of Yingfang, thus blocking the sole remaining route, Yingfang to Tientsin through Wanliakou pass.

CHILD TORTURED BY MOTHER.

Pittsfield, March 9.—Information has been placed in the hands of the state's attorney of a case of revolting cruelty on the part of a mother toward her child. A woman by the name of Martin, who recently came to this county from Morgan county, is accused of inhuman treatment of her 3-year-old son. Investigation revealed innumerable bruises on the child's body. There were blisters on the hips and the flesh of the feet. It is said, was in almost a gangrenous condition.

CHADWICK CASE

Judge Refuses to Take Case From Jury—Carnegie Out of Present Trial

Cleveland, Ohio, March 9.—Andrew Carnegie is now definitely out of the present trial of Mrs. Chadwick. If she should be acquitted this time, Carnegie might appear at a subsequent trial, but as far as the existing case is concerned his pay in waiting for him and he is at liberty to go home. United States Marshal Chandler to day made out a check for \$64.40 to Carnegie's order, and it is held in the marshal's office pending Carnegie's call for it. If he does not call, it will be mailed to him.

The defense to day made a desperate effort to have the case taken from the jury and a verdict of acquittal rendered by the court. After arguments lasting through the greater part of the day, Judge Taylor, just prior to the afternoon adjournment, overruled the motion.

NEW YORK STRIKE

Head of Brotherhood of Engineers Repudiates Action of Leaders in Ordering Strike

New York, March 9.—The most interesting development in the subway and elevated railway strike situation to day was the stand taken by some of the national leaders in repudiating the action of union leaders who ordered and are conducting the strike. George Oliver Stone, of the Brotherhood of Railroad Engineers, to which the motorman's union, instigating the strike was a victim, is one of the national union, the men having broken their contract with the Interborough company. He ordered them to report for duty, failing which expulsion from the organization is threatened.

AMERICAN NOTES.

Alexander von Meitz, the noted composer, will have charge of the classes in composition, harmony and opera coaching in one of the Chicago music schools.

According to the Music Trades of New York, there are sixty-six piano-players, self-playing pianos and other piano and organ attachments on the market or in process.

A music trade paper says that an American steel expert has just made a wire of the highest quality for piano strings, in every way superior to the best foreign wire.

Kroslor's progress in America could be defined as "A Triumphant March." He is greeted with large, enthusiastic audiences, who have only words of praise for his art.

It is said that the Spiering quartet of Chicago will disband at the end of the present season. The reason given is that the returns from this high form of music do not justify the labor and expense incurred. This bit of news is certainly most unwelcome to musicians, as the quartet has been a factor in the musical life of the middle west.

FOREIGN NOTES.

A Bach society has been organized in Johannesburg, South Africa.

Japan makes a great demand for all kinds of organ and piano parts. There are seven organ factories in that country, with a capacity of 400 instruments per month. The Japanese have just begun the manufacture of pianos.

Other countries are following the lead given by Manager Conried. Amsterdam is to have a production of "Parafal" next June. Madame Wagner has made protest.

A Paris publisher, Hougel & Co., is to bring out twelve minuets for small orchestra, by Beethoven, hitherto unknown. One of the original manuscripts, in Beethoven's own writing, shows that they were composed in 1790, and were intended for the famous charity concerts given in the Redoutenfaul, Vienna. These were never performed, as it would seem that Prince Lobkowitz engaged Beethoven to write some other works that were preferred. Thus they were forgotten and were never issued by the publishing house of Aetaria, by whom they were finally, with other manuscripts, sold to the royal court library, in Vienna. They were found by Chantavoine, a young French musical journalist, who was studying in Vienna. It is said that fifteen minuets by Mozart, which have never been published, belonging to a collector in Paris, are to be issued shortly.

The "Queen's Hall Orchestra" played Strauss' "Symphonie Domestique" on Feb. 25. During the week immediately preceding the orchestra held seventeen rehearsals.

The London correspondent of the Musical Courier says: "On Feb. 11 we took an affecting farewell of St. James' hall, which, after a long and brilliant career, has now been handed over to the builders to be converted into a hotel. It was, on the whole, a pity that the final obsequies were not of a rather more solemn nature. The hall has always been associated with all that is best in classical music. It was the home of the old 'Pops,' the Richter

concerts, Handel's London symphony concerts, and, in the old days, of the Philharmonics. Every artist of note of the last fifty years has appeared there. Rubinstein, Madame Schumann, Heller, von Bülow, Reissner, Stenham, Paganini, Sauer, Harold Bauer, Pugno and d'Albore among the pianists, and Joachim, Ysaey, Lady Halle, Wieniawski, Sarasate, Saurat and Kubelik among the violinists, not to mention scores of others well-known to stages, have all won their principal successes there, and the hall is probably connected with more great musical events than any other concert room in the world."

ANNIVERSARY HONORED.

Last Wednesday, March 8, was the sixtieth birthday of our esteemed friend, George B. Ransom, who lives near Lynnville. His children not wishing the day to pass by unobserved, repaired to his home early in the morning with baskets full of good things to eat, and proceeded to make things lively around there. Although completely surprised, our genial host and his good wife soon realized the situation and with good grace tried to make every one happy. The hours were spent in games and music and an excellent dinner was served and enjoyed by all present. Those present were:

Mr. and Mrs. G. A. Lench and family, Mr. and Mrs. J. T. Ransom and daughter, Mr. and Mrs. John Gibbs and daughter, Mr. and Mrs. A. E. Ransom and family, and Master Fred Ransom, who resides at home with his parents.

Late in the evening all departed for their homes, feeling that they had spent a most delightful day and wishing Mr. Ransom many more happy birthdays. A Guest.

CITIZENS' TICKET

Mass Meeting Held at Court House and Independent Movement Discussed—Alex Platt Presided as Chairman—Committee to Be Named in Various Wards.

Two hundred or more persons gathered in the circuit court room of the court house Thursday evening in response to a call for a mass meeting of citizens to discuss the advisability of placing a citizens ticket in nomination at the coming spring election. J. E. Stice called the meeting to order and nominated Alex Platt for chairman, who was chosen unanimously. The chair then called for nominations for secretary. Dr. J. M. Luckstep was nominated and elected, but declined to serve. Several others were placed in nomination, but declined to serve. William McCullough was finally placed in nomination, accepted and was elected.

Mr. Platt upon taking the chair said in part: "All I know about this meeting is what I saw in the daily papers. It is a meeting, I believe, called for the purpose of finding out whether we want a new administration in Jacksonville. If we are satisfied with the existing one there is no need for this meeting. You may say that we ought to wait until the two old parties have made their nominations. This would suit John R. Davis. He told the editor of the Courier two years ago that all he wanted the Democrats to do was to make a straight party nomination. The normal Republican majority of this city is over 75 and it can not be overcome by anything less than an alliance of citizens. Are we satisfied with the present moral and financial government of this city? If not, now is the time to say so. This meeting is called for the purpose of getting an expression on this subject. There is no reason why a city should be run on party lines any more than there is reason for running a bank or mercantile business on party lines. But I am not here to do all the talking. I want to hear from others regarding the advisability of running a citizen's ticket."

The chair then extended an invitation to those present to express themselves, but no one took advantage of the opportunity and the chairman remarked that it was not customary for American citizens to be backward in expressing their opinions.

"As you all seem to be afraid to talk I will ask you to act. All who are in favor of nominating a citizen's ticket without regard to party lines, please stand up." Fifty or more voted in favor of the proposition advanced. Some one demanded that the contrary side of the question be put, but the chair replied that if there was anyone present who wanted to defend the present administration, he would now have an opportunity.

The chair stated that the city was under a ring greater than the famous Tweed ring, and a Republican majority of 75 was not an easy thing to overcome. "Now that a citizen's ticket has been declared advisable, what is the best way to proceed? Shall we select a committee and wait until the other parties have made nominations, or shall we proceed otherwise?"

The chair then called upon Dr. J. M. Luckstep to express his opinion on the questions at issue.

Dr. Luckstep spoke briefly, stating that he had always favored a citizen's movement in municipalities. He wished every city in Illinois could be governed independent of political machines. Parties control the men they nominate. Dr. Luckstep stated that he had always been an ardent advocate of the citizen's idea and he favored clean politics and civic government divorced from the narrow lines of party.

Willis MacDonald then addressed the meeting. He stated that he had lived in the city for thirty-five years and that he was well satisfied with present conditions. In all the time he had been a resident of the city, he had never seen a time when he could not get a drink of whiskey on Sunday, and he was sure that if they nominated and elected a citizen's ticket he could get a drink on Sunday just the same. He stated that he was satisfied with the present administration and was against those who were always complaining and grumbling. The speaker closed with a declaration that John R. Davis would be the next mayor.

The chairman next called upon Dr. Dunham for a few remarks. He said in part: "I am no politician and never have been, but I have some convictions along the lines of good government. I feel that the best interests of the city would be served by the abolition of partisan politics. The individual is under no party restraint in civic matters with a citizen's movement. Our present city administration is known to us all and no eulogy or criticism that I might offer would change the opinions formed."

Aaron Swaby was then called for. He said in part: "I am interested in a citizen's ticket. I have lived here twenty-two years and worked for the best interests of the city, but have invariably run against political machines. I favor a citizen's ticket that will put party lines aside. We are up against a Port Arthur in this matter and it will take a Nogi to win

a victory. I want a moral government for the city—one that will make us feel safe regarding our children, the loved ones of our homes."

The chair then called upon James Brockton, who spoke briefly. He said he had taken very little part in politics, but wanted the best possible government for the city. "The best we could get would be none too good. If the right man can be nominated we can have a better city government than we have at present. There are other things besides civic improvement that should have attention."

Dr. Luckstep then announced that he would like to speak for a couple of minutes and came forward and faced the audience. He said in part: "You men here have got the kind of government you want. You don't want a better government. If this fact were not so then these evils could be corrected. You had Mayor Davis four years ago and then you elected him for two years more, and gave him five hundred additional majority. You don't want a clean government in Jacksonville. I have been fighting for this thing single handed and alone for many years. The business men won't express themselves on the question of proper hours for the closing of the saloons for fear of losing a little trade. Men refuse to appear as witnesses where they know wrong has been committed. We won't get a clean government in Jacksonville until we get a new generation or until the present one dies off or is wiped out. A gentleman remarked to me at the time of the last election that Davis could not be defeated because a majority of the preachers were for him, the gamblers were for him and the prostitutes were for him, and that all hell couldn't beat such a combination." (Laughter.)

The speaker: "This is no time for laughter and such a remark should not cause laughter. "Men are living for the dollar and the dollar only. There is something to live for besides money and office. Let us live for honor and the preservation of the home."

David Spencer was then called for and told of his observations of meetings of the character that was being attempted. He did not believe that they changed the opinions of those who attended them. People came to the meeting with an opinion already formed and went away with the same opinion. He favored law and order and thought that party politics should not enter into municipal affairs.

The chair asked if any one else desired to speak, and no one responded. On motion of James Platt, the chair was instructed to appoint a committee of twenty-five members from each ward to arrange for further meetings and map out a plan of action.

The meeting then adjourned. Chairman Platt stated that he would announce the names of the committee to day or to tomorrow.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy growth of hair; yet if the scalp of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Hairpicide kills these germs and stimulates unhealthy hair to abundant growth. Hairpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. MRS. ROOSEVELT'S GOWN.

Now that the inaugural is past,
the design of the gown destroyed and
the pattern used by the modiste burn-
ed, so that no other gown of its kind
may be fashioned quite like that of
the president's wife, a description of
the gown worn by Mrs. Roosevelt at
the inaugural promenade will interest
many women.

To begin with, American manufac-
turers, American designers and
American dressmakers produced this
gown. The silk, which is electric
blue, was woven at Paterson, N. J.
There were forty yards of silk and
100 yards of chiffon made before the
design was destroyed. Thirty yards
of silk were used in the skirt and
twenty yards in the lining, which is
of the same tone of blue. Upon this
petticoat are rows and rows of plaited
chiffon. The outside skirt meas-
ured from the girdle to the tip of
the train seventy inches. The ma-
terial itself is of electric blue, with
a design of flying doves interwoven
in the silk. At intervals are golden
feathers in medallions. Woven in is
a gold thread, so that at night the
folds glitter like gold and the doves
gradually vanish in the blue back-
ground.

Slippers and stockings match the
gown, and are of the same silk. This
gown for material alone cost \$1,000.
No description was given out previ-
ous to the inauguration, because Mrs.
Roosevelt wished to surprise the la-
dies at the white house.

However, those women who did not
go to Washington, and who long pre-
tend to know, will like very much to hear
just how this particular gown was
made. It is said to be simple in the
matter of its building, and is after
the Empire style, the bodice being a
Louis XV design. The neck is cut
square, as Mrs. Roosevelt so often
wears her gowns, and the tucker is
of shirred chiffon, while the sleeves
are of shirred plaited chiffon. Mrs.
Roosevelt has some beautiful old lace
which had been in her family for
several generations, so this was used
upon the inaugural gown. There was
a train a bit longer than usual, the
skirt was wide and circular and
very full, and rows of plaited material
were put on half way up the girdle.
At the bottom was a three-inch edge
of frilled chiffon.

In her hair Mrs. Roosevelt wore an
electric blue plume. But one of her

inaugural hats was very pretty. It
was a toque made upon a taffeta founda-
tion, covered with cream maline,
so exquisitely shirred upon the silk
that it resembled delicate moss or
fur. The trimming was of black vel-
vet, medallions of horsehair braid,
with small pink rosebuds and Tener-
iffe lace. It rises slightly in the back
and tips forward over the face. The
edges of the brim are covered with
black velvet and the crown is deco-
rated with horsehair braid medallions,
with tussan dots, and in the center
three tiny rosebuds. The back is
draped with Teneriffe lace caught up
with an ornament.

FOR THE HOUSEWIFE

Uses For Kerosene.

Few housekeepers realize the clean-
ing properties of kerosene. A few
drops added to the water in cleaning
mirrors and windows will give them a
fine luster. Applied clear with a soft
rag it will remove rust from nickel and
iron, dirt from painted surfaces and
stains from porcelain lined sinks and
bathtubs. It is sure death to bedbugs
and other insects and added to the wa-
ter in which clothes are boiled in pro-
portion of a tablespoonful to a bucket
of water will make the clothes beauti-
fully white and greatly lessen the in-
hospitable "wash day." It is fine for
cleaning the sewing machine, remov-
ing all that gummy, sticky substance
which is such an annoyance, though
the machine must be thoroughly oiled
after using it, as kerosene is not a
lubricant. A little kerosene—say a ta-
blespoonful to a gallon of strong soap-
suds—sprinkled on the rosebushes in
the garden once a week will keep them
free from insects.

To Prevent the Wash Freezing.

During the winter season, when hang-
ing out clothes is so difficult, try put-
ting a handful of salt in the last rins-
ing water, and the clothes will not
freeze or stiffen until after they are
hung on the line. Indeed it is possible
even to change the position in a lineful
of clothes if necessary before they
freeze, and, best of all, if hung out in
the sun they will have commenced to
dry before the freezing begins. This
saves the wear and tear, for nothing is
so hard upon linen as this freezing and
flapping in the wind. They are also
easier to remove from the line.

To Whiten Clothes.

If clothes have become discolored
through improper washing, try for a
few wash days the plan of scalding
them just before putting them into the
last rinse water. This will whiten
them beautifully, although it is more
trouble.

Never take the clothes from the line
damp and fold down to iron. Let
them get quite dry and then bring them
in, folding them properly when they
are taken from the line, as this will
save much ironing out of wrinkles.

Hardwood Floor Polish.

Melt together in a jar set in hot wa-
ter one pint of turpentine, one and a
half pounds of beeswax and five ounces
of powdered resin. These ingredients
are all very inflammable, so do not al-
low them to come in contact with the
fire while being melted. When quite
mated, apply and polish. The polish-
ing needs an amount of "elbow
grease" or else a weighted brush, and,
after all, the latter well repays its first
cost in the amount of labor saved.

NERVOUS HEADACHE

The Cause of Much Suffering to Wo-
men is Permanently Cured When
the System is Built Up by

DR. A. W. CHASE'S NERVE PILLS

When the head aches hard and
throbs; when the neck and eyes grow
stiff, the face flushes or grows deadly
white; when any excitement or over-
effort brings on an attack of ner-
vous headache so severe that it leaves
you weak, trembly, shaky and utterly
worthless for the day, it is a certain
indication that the nervous system is
shattered—that resistive power is
gone—that you need a medicine that
will rebuild and re-supply the lost
nerve force, that will so strengthen
you that you can resist and over-
come these terrible seizures. Such
a medicine is Dr. A. W. Chase's Nerve
Pills, a medicine that does not re-
lieve but goes to the root of the
trouble and positively cures.

**Mrs. John Fall of Fourth St.,
Toronto, Ohio, Says:**

"I like Dr. A. W. Chase's Nerve
Pills because they cured my nervous
sick headaches—these headaches used
to play me out and leave me weak
and nervous, the pain being so se-
vere. My eyes used to get stiff and
sore during the attack and the neck
so stiff I could hardly turn it. The
Nerve Pills, however, proved to be
just what I needed and cured the at-
tacks in a hurry. As a result I feel
steady in nerves, physically strong
and vigorous and in every sound and
vigorous and in every way sound and
speak too highly of the medicine."

EDUCATIONAL WORK

Of the Springfield, Ohio, Trades and Labor Assembly.

A few years ago the education com-
mittee of the Springfield, Ohio,
Trades and Labor Assembly decided
to try the experiment of a course of
university extension lectures, and ac-
cordingly made a contract with Pro-
fessor Zueblin, of the department of
sociology in the Chicago university.
The lectures were to be illustrated
and to deal with "Phases of British
Municipal Life," the course being
illustrated with 300 stereoscopic
views. The effort was a great suc-
cess from the start and drew large
audiences, which were highly pleased
with what they saw and heard. So
well satisfied was the assembly that
the professor was engaged for a
course of six more lectures the fol-
lowing year, and that time he took
for his topic "American Municipal
Progress." The attendance was
greater than the year before, so the
next year they secured Prof. Ira W.
Howarth, of the Chicago university
to deliver a course of six lectures and
he chose for his theme, "Our Coun-
try." Although the auditorium seated
1,400 many were turned away for
lack of room. Again Professor How-
arth was engaged and the topic
chosen was "Phases of the Labor
Question," which was to be delivered
the present season.

The work grew in popularity and
the assembly bought a fully equipped
stereopticon and a moving picture ma-
chine and these are used to illustrate
the lectures and provide some form
of entertainment in connection there-
with. The press of Springfield was
enlisted in the cause and gave free
notices of the lectures and after they
had been delivered spoke in terms of
the highest praise of them and the
enterprise in general.

CENTENARY REVIVAL.

The revival at Centenary church is already on. Great interest was shown last night and a number came forward to the altar, some of whom professed faith in Christ. Deep conviction was manifest in all the house. Names are being added daily to the list of those who daily pray for a general revival throughout the city, such as we have not experienced for many years. The conviction is deepening that this is God's favored time for such a religious awakening.

The Bible reading at 3 o'clock was an hour to be remembered for the illumination of the Book and conscious presence of God.

At 7:30 Dr. Seringer preached another powerful sermon on the lost birthright. It was plain, searching and persuasive, showing that each has a birthright by virtue of redemptive grace in Christ, and each can despise it or throw it away, as did Esau, to gratify fleshly desire.

Rev. C. F. Bulker will preach to night and the pastor will give Bible reading at 3 p. m.

A GRAND SUCCESS.

If people doubt that newspaper advertisements pay, they should visit the store of Johnson & Hackett this week and see the crowds attending the Great Majestic Sale and the large number of ranges sold. This is not to be wondered at, as all know the good reputation the Majestic Range has made for itself in this city the last 18 years, and the special offer made this week is one that no one of judgment will let pass if they expect to buy a range within the next year. The sale is in charge of E. T. Phalen, formerly of this city, which accounts largely for the success of the same.

SOCIAL AT BAPTIST CHURCH.

The Baracca Class, Young Ladies' Aid society and Baptist Young People's union gave a social in the parlors of the Baptist church Thursday evening to a large and appreciative audience. The proceeds, \$20, will be used in the interests of the mission on North Main street.

The feature of the evening was a mock trial, wherein Elmer Ellis was the defendant in the case, being charged with stealing a loaf of bread from Arthur Henderson's store on West State street. Norman Coughlin and J. W. Thompson were the prosecuting attorneys; Barkley Wyckoff and Roy Kneeland for the defense. William Spires was judge and J. A. McElloth clerk of the court. Six young women and six men were selected from the audience to serve as jurors. Much merriment and many outbursts of laughter were heard during the questioning of witnesses. Witnesses for the people were Arthur Henderson, Luther Lashmet and Dr. Kopperl; for the defense, "mother" of the defendant, Mrs. E. Lucas, "sisters," Wave Saylers and Ella Crawford.

A very large amount of evidence was offered on both sides and was considerably juggled by the attorneys before being allowed to go to the jury. Judge Spires delivered very explicit instructions to the jury before allowing them to retire to consider the evidence. They returned a verdict of "not guilty." The following composed the jury: Mrs. E. O. Mayer, Misses Harriet Story, Carrie Spires, Sadie Kelley, Mabel Hayden and Mabel Withee; Messrs. T. Cheney, Ross Stiff, R. Empson, J. W. Chipchase, Ralph Withee and J. Terry.

The Young Ladies' Aid society had charge of the refreshments, which were served after the trial.

PUBLIC LIBRARY NEWS

Many Popular Novels Have Recently Been Placed Upon the Shelves.

The public library has just added a number of new copies of popular novels always called for and for which it is unable to supply the demand. The additions include the following authors: Blackmore, Hall Caine, Rosa N. Carey, Marie Corelli, Conan Doyle, Jessie Fothergill, Edna Lyall, Augusta J. Evans. These books will be ready for circulation Saturday morning at 9 o'clock.

A book of unusual interest recently added is "The Americans," by Hugo Munsterberg. It is a translation of Die Amerikaner, which was written largely to bring about a better understanding of the Americans on the part of the Germans. "Judging the book as a whole, the salient feature of it—one which meets the reader on every page—is its unflinching optimism." It is written in Professor Munsterberg's attractive style and is both interesting and very suggestive. Of timely interest is the volume entitled "The History of the Expedition of Captains Lewis and Clark," 1804-06, edited by James K. Hosmer. The library is also a subscriber to the Sunday copy of the Oregonian, which will be helpful to those interested in the Lewis and Clark expedition this summer.

The newspaper files in the reference room include, besides the local papers, the following newspapers:

Chicago Record-Herald.

St. Louis Globe Democrat.

St. Louis Republic.

Springfield (Ill.) Journal.

Virginia Gazette.

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts." These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cotrely are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Surely such testimony is convincing. Mrs. J. G. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham—
"I have suffered everything with backache and womb trouble. I let the trouble run on until my system was in such a condition that I was unable to be about, and then I was recommended to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner. For a few weeks' treatment made me well and strong. My backaches and headaches all gone and I suffer no pain at my menstrual periods. Whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrely, 100 East 12th Street, New York City, writes:

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Mr. I. N. Poole, proprietor of one of the best barber shops in Muncie, Ind., has words of praise for Dr. Fenner's Kidney and Backache Cure. He writes Dr. Fenner:

Fenner's, as all others have failed and Dr. Fenner's has completely cured me. PEOPLE OF THE DAY

A Remarkable Russian.
The recent disturbances in Russia, which resulted in the slaughter of so many of the czar's subjects by the Cossacks, call forcibly to mind the real "little father" of the Russian people, Count Leo Nikolaevitch Tolstoy, whose life has been devoted to the amelioration of the woes of his countrymen.

Count Tolstoy was born on his father's estate in the government of Tula. Left an ample estate by his father,

COUNT LEO TOLSTOY.

he entered the army at the age of twenty-three as an officer of artillery, taking part in the Crimean war. Disgusted with the horrors of war, he resigned at the close of the campaign. Traveling abroad in 1857, he found much that was distasteful. He was particularly impressed with the poverty of the masses and the ignorance of modern society. Returning to Russia, he settled on his estate, devoting himself to the education of the peasants and to literary pursuits. Of late years (Count Tolstoy has been in the habit of attiring himself in the coarse garments of the moujik.

A Fighting Parson.
Senator Blackburn of Kentucky delights to tell of a parson he knew down in the blue grass region who was a muscular Christian.

The parson found it necessary to take half a dozen young toughs who persisted in disturbing one of his meetings out behind the church and while them unmercifully. When he returned one of the members of his flock, who was somewhat of a fighter himself, rose in meeting and said: "It is a solemn duty of this here congregation to stand by Parson Johnson. He does not seek trouble, but he will not show the white feather when trouble is forced in his way. I believe that, unrestrained by divine grace, Parson Johnson can whip any man in Kentucky. The Lord is with him. Let us pray."—New York World.

True Inwardness of the Case.
Representative Hay of Virginia tells of an altercation in a colored club in Richmond that resulted in nearly all the members being haled before a police magistrate.

"You were present during this trouble?" asked the magistrate of a witness.

"Yes, yo' honah."

"Then tell us in a few words just how the difficulty began."

"Well, yo' honah," replied the dandy, with much gravity, "I think it was when the chairman of de entertainment committee swatted the secretary oval de head wid de lovin' cup."—Collier's Weekly.

An American Sea Fighter.

Rear Admiral Charles D. Sigbee, commanding the Caribbean division of the north Atlantic fleet, who recently arrived at Santo Domingo with his squadron, will practically be in charge of all the ports of the island when the protocol signed by President Morales and Commander Dillingham goes into effect.

Rear Admiral Sigbee is widely known as the officer who (then captain) commanded the ill-fated battleship Maine when she was blown up in Havana harbor. He is a native of New York and graduated from the Naval academy in 1863. He was made ensign the same year and attached to the Brooklyn, in the Gulf squadron, on which vessel he took part in the battle of Mobile Bay, Aug. 5, 1864, and participated in both attacks on Fort Fisher. Since then he has been three times at the head of the academic department of the Naval academy, a member of the academy board, has been in charge of the United States hydrographic department and has served on the board of naval construction. He reached the grade of rear admiral in August, 1903.

OLD AGE

Not a Time of Life, or Length of Years, but a Condition of Bodily Tissue.

said a celebrated London physician, and just so long as the bodily tissues can be kept from wasting and built up, just so long can old age be kept at bay, and people will be alert, alive, active and young.

Our well known druggist, Mr. Lee P. Allcott, says: "Our cod liver oil preparation, Vinol, is the greatest tissue builder and invigorator in the world for old people. There is nothing else known to medicine that can equal it, because Vinol contains in a concentrated form all of the body-building, life-giving principles of cod liver oil actually taken from fresh cod's livers, and is not a stimulant which produces bad after effects. We have letter upon letter from grateful old people whom Vinol has strengthened and blessed with robust health; Vinol invigorates the stomach first of all, enabling it to separate from the food the elements needed for rich, red blood, healthy body material and sound, steady nerves. In this way it repairs worn tissues, checks the natural decline, and replaces weakness with strength."

Mr. A. J. Barker, of Evansville, Ind., says there is no other medicine in the world equal to Vinol for old people. He would not take a thousand dollars for the good it has done him.

The grandniece of Alexander Hamilton, Mrs. Sarah J. Windom, says: "Vinol is a godsend to old people." She is 76 years old, and is active and well, thanks to the vitalizing effects of Vinol.

We wish every man or woman in Jacksonville who "feels old," whether they are so in years or not, would try Vinol on our guarantee to return their money if they are not satisfied after using it. Lee P. Allcott, Druggist, Jacksonville, Ill.

SPECIAL OFFER

REGARDING

diseases of the skin

We have lately secured the agency for this city and vicinity of a preparation which is reliable and certain in clearing away troubles of the skin. Many forms of skin affections which have been considered incurable are conquered by this medicament as easily as a cough is stopped by the proper soothing and healing influences. This preparation is now in use among skin specialists, and many large hospitals have adopted it for eczema and kindred cases. It stands among the most useful medical agents now known.

We have evidence of its work to show which will interest any sufferer. Call and investigate same. Since we have been handling the remedy—known as D. D. D.—its work proves so effective we guarantee its efficacy. In all cases of skin affliction we will refund the price of a bottle (\$1) if the sufferer does not consider it literally a Godsend after trying. It is curing the worst kind of cases every day. It seems a pity any one should suffer the torture of skin troubles when so dependable a curative agent can be had so cheaply.

Are You In the Rush and Bustle?

While we join in the rush and bustle of this busy world, overlooking our energies and neglecting our systems, many of us are mental and physical degenerate, and of bodily strength and fitness. Then perhaps the health breaks down, and we seem doomed to long periods of pain and depression. Our whole life is darkened.

Prompt, Easy Recovery.

The greatest thing in the world—A Mother's Love! The love she lavishes on her children; the love her child should have for her; without this love she could not endure the agonies incident to childbirth; appreciative of this love, Mother's Friend was devised to lessen the pain and anguish of childbirth, that her love might not be strained to the breaking point. Mother's Friend does all this and more—it enables the fond mother to speedily recuperate from the labors of maternity, enables her to regain her lost strength, preserves her youthful lines of beauty, and makes pregnancy her crowning joy without any thorns to mar it.

Mother's Friend

is applied externally, is most harmless in its consistency, most happy in its results, and is of such merit that no case of labor should be conducted without its use. It is a liniment for massage of the abdominal muscles during pregnancy, and by its use their tonicity and power of contraction is greatly enhanced, enabling them to sustain the great strain brought to bear on them at this time. It is Mother's Friend. The name should be enough to recommend it to all who expect to be mothers.

AT THE GRAND

Bennett-Gomes Amusement Company Gave Splendid Entertainment Under Auspices of Camp No 912 Modern Woodmen.

The Bennett-Gomes Amusement company, under the auspices of Camp No. 912, M. W. A., held the boards at the Grand Thursday evening and gave a very creditable production of magic, comedy and song. A fair audience was present and enjoyed the evening's entertainment exceedingly. The magic of Mr. Bennett was a revelation to the audience, embracing most of the tricks and illusions usually presented by a Hermann or a Kellar, with a few original variations. The work was quick and clever and in every way satisfactory, including a number of good card tricks and quick finger work. He was assisted by Joseph Gomes, whose perfect understanding of his duties added much to the success of the entertainment.

The original mechanical tricks of Bennett and Gomes took well with the audience. The burning trick, suspension, magic cabinet, trick box and sack trick were all cleverly executed and made a great hit.

Lawrence Mays was the soloist of the evening and won enthusiastic and continued applause. His Hoosier dialect, solo songs and imitation of a cat fight struck the proper chord, and his hearers immediately responded with vociferous encores.

The mechanical appliances used in the production are the work of Messrs. Gomes and Bennett and are admirably adapted to the purposes for which they are used. The gentlemen are to be congratulated upon the success of their first entertainment in this city.

THE MASTERS SALE

Good Prices Prevailed and Attendance Was Large—Many Went From Jacksonville

The sale of the personal effects of the late S. D. Masters at Murrayville was held Thursday with a good attendance, persons from Jacksonville, Whitehall, Manchester, Carrollton, Modesto, Winchester, Roodhouse and other places being present. Prices generally ruled well. Cows brought from \$38 to \$46; horses, \$73 to \$170; calves, \$18; mules, \$354 to \$401 per span; rye, 50c a bushel, and implements brought good figures. The sum total was \$1,280. Capt. J. E. Wright was the auctioneer and M. J. Clerihan clerk.

The sale was conducted under the management of Attorney George L. Merrill, executor of the Masters estate, and a number were present from this city.

DEBTS OF NATIONS.

The debts of nations given in the World Almanac exceed \$50,000,000,000. These do not nearly represent the cost of a century's wars, but only that portion of the cost that remains unpaid and a charge upon the people, continues the New York World. Only in a few cases, like Canada and New Zealand, does the public debt represent other than war expenses, and these sums are more than balanced by "left-over" debts from the eighteenth century. The earth has 1,487,000,000 inhabitants, or 297,580,000 families. Its permanent load of war debt is \$1,000 for every family.

DEBATE BETWEEN HIGH SCHOOLS

Local Team Will Go to Springfield Accompanied by Sixty Supporters—Former Governor Yates Will Preside—Special for Return Trip.

The debating team of the local high school will leave for Springfield this morning on the 8:37 train, to represent their school in joint debate with the Springfield high school this evening. A party of about sixty, including a number of teachers, will go over on the regular train at 3:15 in the afternoon, and a special will return at night from that city after the reception to be tendered the Jacksonville debaters by the Springfield high school.

The debate will be held in the high school auditorium and ex-Gov. Richard Yates will preside. The subject for discussion is: "Resolved, That the United States should hold the Philippines as a colonial dependency." The affirmative will be argued by the Springfield team, consisting of Charles Donelan, Will Grant and Vallo Appel, while the negative will be taken by the Jacksonville team, composed of Karl Weber, Senn Miller and John Butler.

The Springfield high school orchestra will furnish music for the occasion, and following the debate a reception and dance will be given for the visiting team in Fero's hall. A dance program of twelve numbers will be enjoyed.

The local high school and Eighth grade will hold but one session to day, dismissing at 1 o'clock, in order that all who desire may join the crowd for Springfield. The following teachers will accompany the party: Misses White, Brown, Kuechler, Kent, Sewall and Calky; Principal Glasgow and Superintendent Webster.

WORK OF MRS. READ.

Mrs. Helen Brown Read, who has been studying in Germany for the past year, expects to return to this city in a few months, and will give a concert at the Congregational church some time in June. Concerning her work in Germany the Dresden "Globe" and "Journal" have the following:

"A very successful and enjoyable benefit concert was that given by Mrs. Helen Brown Read at the Hotel Bristol on Tuesday evening, with the assistance of Miss Bessie Taylor, (violin), and Mr. Herbert Williams (piano forte). The large hall was quite full. Mrs. Read has a very agreeable and tuneful voice, described in the program as mezzo-soprano, but of light quality, with good low and high notes. She sang a number of German songs, a charming selection grave and gay, by Wolf, Schubert, Schumann, Rubinstein, Strauss and Liszt; with remarkable musical taste, unexceptional vocal technique and excellent enunciation. Rubinstein's "Neue Liebe" and Liszt's "Die Lorelei" were, we thought, particularly well rendered; as were also a most refreshing group of English songs at the end of the programme, viz.: Marzials "Twickenham Ferry," sung with true barcarole swing (if just a thought too fast for that idea, if applicable), Chadwick's "Allah," and a worthy close to a typical musical evening—Malloy's "Mrs. Prue." That the singer was heartily cheered throughout, goes without saying."—Dresden "Globe."

"In the seal of the Hotel Bristol yesterday evening was held a charity concert, a song recital given by Mrs. Helen Brown Read. The lady giving the concert appeared with gratifying results before an audience composed in the main of members of the foreign colony. In a rich and sympathetic mezzo-soprano, evincing a foundation of sound training (Frau Prof. Petri), Mrs. Brown Read rendered the songs of Hugo Wolf, Strauss, Schubert, Rubinstein and others."—Dresden "Journal."
